

MEMO — Small-Dollar PAC Overhead: The Waterfall and the Named Groups

Date: 2026-07-01 **Re:** PACs that raise from small donors, spend almost nothing on the stated cause, and are wired together by shared fundraising vendors **Basis:** FEC 2024 cycle (last completed); 2026 figures are cycle-to-date **Nature:** Investigative leads from public FEC filings. "Scam-profile" describes a financial pattern, not a legal finding. High overhead is legal on its own (*Schaumburg / Riley*); a case requires proof of affirmative deception.

1. The waterfall (Exhibit A)

How the FEC universe narrows to the leads.

Step	PACs	What it means	Cut
All PACs filing 2024 totals	9,208	everything	—
Active (>\$10k disbursed)	5,980	drop dormant/tiny	−3,228
High-overhead (mission ratio <20%)	1,548	<20¢ per \$ reached a candidate/IE	−4,432
Meaningful size (≥\$100k receipts)	758	enough money to matter	−790
Small-dollar-funded (≥50% from <\$200 donors)	206	raised from ordinary people, not institutions	−552
Coordinated (share a distinctive vendor)	60	tied to another such PAC by a rare fundraising vendor	−146
↳ tied to a named / convicted operator	19	the provable core	
↳ newly surfaced (needs triage)	41	mixed; see §4	

Scale: the 206 harvested **\$354M from small donors in 2024**. The 60 coordinated PACs carry **\$170M** of that (48%) — the smaller, richer half.

2. The named groups (Exhibit B)

Each group is a set of PACs wired to the **same fundraising vendor(s)**. Columns are 2024 receipts and 2026-to-date, from FEC totals.

Group 1 — Zeitlin data network · **VENDOR CONVICTED (wire fraud)**

Vendors: Cloud Data Services · LAV Services · Wired4Data · Standard Data Services **11 PACs · \$26.2M (2024) · \$25.0M from small donors · \$5.2M raised in 2026**

2024 receipts	2026 to date	PAC
8,366,318	3,480,678	Law Enforcement for a Safer America PAC
4,924,557	1,189,863	American Coalition for Crisis Relief PAC
3,327,417	12,786	Police Coalition of America PAC
1,869,853	0	Constitutional Leadership PAC
1,763,010	5,109	Police and Trooper Support PAC
1,759,211	536,456	Honoring American Law Enforcement PAC
1,567,457	2,326	American Veterans Initiative PAC
1,335,884	1,668	United Breast Cancer Support PAC
636,073	0	American Veterans Support Group PAC
321,424	0	Firefighters Coalition of America PAC
295,775	0	American Police and Troopers Coalition PAC

Police / veteran / firefighter / breast-cancer names; ~0% reaches any of them. The vendor entities were convicted of wire fraud (Zeitlin). Charity-name PACs still raising in 2026.

Group 2 — Gelvan / Public Support Services orbit · OPERATOR BANNED (civil)

Vendors: Public Support Services · Market Process Group · Outreach Calling **2 PACs · \$5.1M (2024) · \$5.1M small-dollar · \$1.4M in 2026**

2024 receipts	2026 to date	PAC
3,462,682	1,090,743	American Alliance for Disabled Children PAC
1,681,135	302,918	Economic Justice for All

Disabled-children / justice names via a telefund vendor tied to the FTC-banned Gelvan charity-fraud operation. The operators of these PACs were not charged.

Group 3 — PACSmart health-charity · UNCHARGED — strongest new lead

Vendor: PACSmart **2 PACs · \$0.53M (2024) · \$0.52M small-dollar**

2024 receipts	2026 to date	PAC
311,554	0	American Health Committee PAC
221,245	0	United Women's Health Alliance PAC

*United Women's Health Alliance runs robocalls ("money goes in part to female officers injured in the line of duty"); ~0% does; operator pays herself; elderly victims; a named person with assets; **not yet prosecuted**. Smallest dollars, cleanest fraud pattern.*

Group 4 — Outreach mail-shop · MIXED — do not treat as one scam

Vendors: Image Direct Group · Excel Mailing Services · related mail/caging houses **8 PACs · \$12.2M (2024) · \$8.2M small-dollar · \$5.1M in 2026**

2024 receipts	2026 to date	PAC
2,625,512	2,135,637	Ranger PAC
2,187,800	934,166	Black America's Political Action Committee
1,773,600	0	FreedomWorks for America
1,747,382	241,443	Madison Project Inc.
1,461,352	608,262	TeaPartyExpress.org
1,407,191	759,555	New Journey PAC, Inc.
878,917	451,880	Latinos for America First
129,498	0	Stars and Stripes Forever PAC

*These share a mail house, nothing more. FreedomWorks, Madison Project, and Tea Party Express are real, long-standing organizations. **A shared vendor is not a shared scam** — this group is included for completeness and needs name-by-name review, not accusation.*

3. The vendors themselves (Exhibit C)

The "companies in the middle" — the rare fundraising vendors that link the coordinated PACs. Distinctive = few total clients across the whole FEC universe, so a shared vendor is a real coordination link, not an industry-wide mail house.

Client PACs (scam-profile)	Total clients (all FEC)	Vendor
11	6	Cloud Data Services (<i>Zeitlin</i>)
9	8–9	LAV Services · Wired4Data · Standard Data Services (<i>Zeitlin</i>)
7	11	Paction Data
6	11–12	Excel Mailing Services · Image Direct Group · ECG Data Center
5	7–9	North American Fulfillment · North Star Multimedia · Moore RMG
4	4–5	Pro Speaking · Office Edge · Next Level Digital · Deadwood Interactive
3	3–4	DS3 Marketing · Avery Services · Contact Logistics · DirectMail.com

Full list of all 45 distinctive vendors with client counts: `distinctive_clusters.csv`.

4. Honest limits (read before quoting a number)

- **The screen finds leads, not fraud.** A case needs an affirmative lie to

donors (e.g. "your money helps injured officers") contradicted by the filings — not just a high overhead ratio, which is legal.

- **The 41 "newly surfaced" PACs are contaminated.** Many are legitimate

independent-expenditure / turnout / redistricting PACs (National Democratic Redistricting PAC, DAGA, 314 Action, Let America Vote) that give ~0 directly to candidates *by design* and share mainstream party vendors. Their \$200M/2024 and \$94M/2026 are mostly legitimate political money. The real leads inside the 41 are the small-dollar single-name outrage PACs (e.g. Elbert Guillory's America, Heartland Patriots) — roughly 8–12 worth review, not 41.

- **Vendor continuity ≠ same people.** The Zeitlin *entities* were convicted; some current PAC operators were not charged. Confirm operators before naming anyone.

- **The provable core is small and clean:** the ~23 named-vendor PACs, led by the 11-PAC Zeitlin police/veteran ring, still pulling **\$11.8M in 2026**.

Exhibits (data files)

- Exhibit A — waterfall counts (this memo, §1)
- Exhibit B — `ring_map.csv` (named groups, per-PAC 2024 / small-\$ / 2026)
- Exhibit C — `distinctive_clusters.csv` (all 45 vendors + client counts)
- Exhibit D — `new41_raise.csv` (the 41 newly-surfaced PACs, 2024 + 2026 raise)
- `case_candidates.csv` — all 206 scam-profile PACs
